$30 Prospective Chamber Member

Robert Thibodeau, AIM NationaLease Logistics

In 2010, The U.S. Dept. of Transportation's Federal Motor Carrier Safety Administration (FMCSA) took a major step toward improving commercial truck and bus safety with the launch of the Compliance Safety Accountability (CSA) program.

The centerpiece of CSA is the Safety Measurement System (SMS), which will analyze all safety -based violations from inspections and crash data to determine a commercial motor carrier's on-road performance. The new safety program will allow FMCSA to reach more carriers earlier and deploy a range of corrective interventions to address a carrier's specific safety problems.

Robert Thibodeau, Safety Director, **AIM NationaLease Logistics,** will discuss these provisions and some best practices for companies engaged in commercial traffic.

This session has been approved for 1.0 credit hours toward the PHR, SPHR and GPHR recertification
