

Rising Tides: Unlock Innovation & Growth with Manufacturing Services

Advancing Manufacturing | Strengthening Innovation | Expanding Opportunities

EMPOWERING OHIO'S MANUFACTURERS FOR THE FUTURE

COMMERCIALIZATION SERVICES

Accelerate Market Success – Our team helps manufacturers develop new technologies by providing:

- ✓ Product Development & Market Assessment
- ✓ Funding Strategies & Financial Projections
- ✓ Market Channel Expansion

SBIR/STTR & FEDERAL GRANT PROPOSAL WRITING

Turn Ideas into Commercialized Products – Rising Tides will assist in securing federal funding to develop new intellectual property and boost competitiveness.

TECHNOLOGY ADOPTION

Bring Cutting-Edge Technology to Your Business: Manufacturers can receive up to a **50% reimbursement on technology adoption pilot projects valued at \$15,000**. These projects serve as an "entryway" into larger-scale, de-risked innovation. Eligible technologies include:

- ✓ Additive Manufacturing (e.g., 3D printed tooling & prototyping)
- ✓ Industrial Internet of Things (IIoT)
- ✓ Advanced Energy & Sustainability Solutions
- ✓ Robotics & Automation

How We Help: The Rising Tides Partnership can provide expert support in project identification, design, engineering, technical specs, supply chain development, and proposal writing.

SUPPLY CHAIN OPPORTUNITIES

Tap into High-Growth Industries – Through this partnership, we connect businesses to Aerospace, Defense, Microelectronics, & Advanced Energy supply chains.

- ✓ Educational & Networking Events
- ✓ Materials Development & Industry Insights
- ✓ Direct Assistance in Capability Building

21ST CENTURY WORKFORCE PROGRAMS

Future-Proof Your Workforce – America Makes will host half-day seminars to help manufacturers attract, train, and retain top talent. A follow-up workshop (9-12 months later) will assess progress and refine strategies for long-term workforce success.

ABOUT RISING TIDES

Collaboration is at the heart of Rising Tides. By working with key regional partners, we provide manufacturers with the resources, expertise, and connections needed to succeed in today's rapidly evolving industrial landscape.

Join us in shaping a stronger, more competitive manufacturing ecosystem for Ohio!
